

SEEKING NEURODIVERGENT ASIAN AMERICANS!

Lived Experiences of Neurodivergent Asian American Emerging Adults -A Photovoice Exploration-

MASTER'S THESIS
COMMUNICATION SCIENCES & DISORDERS
EMERSON COLLEGE

We are conducting a participatory study to explore the lived experiences of neurodivergent Asian American emerging adults.

Who can participate in this study?

- Asian American
- Age 18-29
- Completed grades 1-12 in the US
- Identifies as neurodivergent
- Has a neurodevelopmental condition (autism, ADHD, dyslexia, etc.)
- Able to participate in Zoom group discussions, with accommodations
- Willing to learn basic photography skills (smartphone OK)
- Available to meet in Fall 2023

What will participants do & how much time will it take?

- Initial group meeting (on Zoom, 1 hour, not recorded)
- 3 group meetings (Zoom, 2 hours, recorded), 3 weeks apart
- Final exhibits at Emerson's Robbins Center & online
- Final group debrief meeting (Zoom, 1 hour, recorded)

If you are interested in participating in this study, please **fill out the Google Form** at the QR code or this link: **tinyurl.com/NDAAthesis**

Please email us if you have any questions!
